

Pediatrician Nanaimo, Vancouver Island

The Vancouver Island Health Authority (Island Health) has an opportunity for a full-time Pediatrician in Nanaimo, BC.

Applicants must hold certification with the Royal College of Physicians and Surgeons of Canada and be eligible for full licensure with the College of Physicians and Surgeons of BC.

Nanaimo has 6 FTE pediatricians providing community and hospital based work with a 1:6 funded on-call schedule. The group rotates "on service" weeks at the hospital 1:6.

Nanaimo Regional General Hospital (224 acute beds) has a dedicated pediatric ward and active outpatient facility supported by a core team of pediatric nurses, dietician, diabetic nurse educator, social worker, and a full-time child life worker. Experience and interest in participating in our Diabetes Clinic would be an asset as we anticipate a physician vacancy in this clinic in the next 1-2 years. The hospital has a state-of-the-art 9-bed, level 2b NICU, providing provincial beds to infants >32 weeks gestation, including short-term ventilation and TPN.

Community work includes consultative care (primary care only for complex patients) and the current need is primarily in the assessment of school-aged children with behavioural, developmental and mental health concerns. Interest and expertise in caring for this population would be an asset. Shared office space is available with reasonable overhead. Affiliation with the University of British Columbia's Island Medical Program provides teaching opportunities to medical students and residents.
