

PEDIATRIC OPPORTUNITIES

VERNON

Long Term Locum Opportunity, with potential for long term placement.

Join our 4 Pediatrician office near Vernon Jubilee Hospital (VJH). VJH offers supportive ER physicians, a collaborative OBGYN, Family MD, midwife delivery team and nursing support with 9 delivery rooms, 4 nursery beds servicing babies 34 weeks and up and 5 pediatric beds. There is also a diabetes clinic and an opportunity to teach medical students.

WILLIAMS LAKE

Enjoy a busy practice while supporting the soon to be renovated hospital. Currently, Cariboo Memorial Hospital is a 31-bed hospital offering emergency, ICU, 24-hour general surgery and obstetrical coverage, full-time radiology, and a pediatric specialist. Practice is also possible in the Child Development Center alongside various therapists.

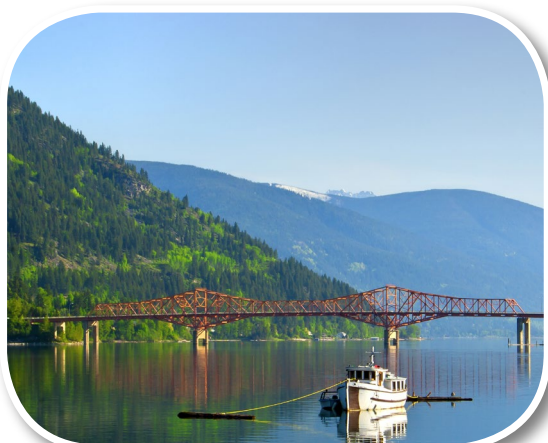

KAMLOOPS

Join our team of 6 pediatricians providing neonatal, consultant pediatric services and general acute care at Royal Inland Hospital (RIH). RIH is a referral centre offering 10 pediatric beds and a level 2B (CPAP, short term ventilation, TNP) NICU with 8+ beds. Affiliated with the UBC Faculty of Medicine, this role is also involved in teaching medical students and residents. community based practice.

PENTICTON

Fully EMR based with 8 inpatient beds shared with adult services and a level 1 capacity nursery for infants 36 weeks and over. Maternity care is shared between Obstetricians, Midwives and an FP based Maternity Clinic. Our team also teaches medical students and participates in the regional assessment team for developmental disability programs.

NELSON

This hospital based practice comes with a fully equipped office and is supported by 2 full time obstetricians and an active midwifery program. Kootenay Lake Hospital is a 30-bed hospital with a very active integrated maternal/child health program. On-call hours are funded and there is an additional opportunity to share in providing outreach services.

KELOWNA

Join our 8 member team providing general acute care, neonatal and consultant pediatric services at Kelowna General Hospital (KGH). KGH is a level 2B referral centre and offers 10 bed NICU and 10 bed pediatric units as well as a rapid access clinic. In association with UBC's Southern Medical Program, you will also participate in teaching medical students.
