

PEDIATRICS OPPORTUNITIES IN TERRACE

Northern Health is seeking pediatricians for [Locum](#) and [Permanent](#) opportunities in [Terrace](#). Terrace serves a large segment of Northwest British Columbia and is a teaching site for UBC Medicine. There is significant primary care capacity and outstanding specialist support and services.

Your home and workplace are surrounded by the stunning coastal mountain range, Skeena River ecosystem, lush ancient rain forests, not too far from the Pacific Ocean. Enjoy the mild winters, back and cross country skiing, heli-skiing, snowshoeing, snowmobiling, indoor and outdoor skating, ice-fishing and in the evening you can soak in the local hot springs. In the summer, go golfing, hiking, mountain biking, camping, rock climbing, canoeing, kayaking, boating and swimming in the pristine lakes and of course, go fishing in the Skeena and tributaries for world-renowned salmon and steelhead while keeping an eye out for the rare Kermode or “Spirit Bear”.

The general pediatric office is in close proximity to the Mills Memorial Hospital. The pediatrician will join a group of wonderful colleagues and would be responsible for office work and hospital on call (1 in 3). Terrace is the referral centre for the NW central corridor, the Hazelton, the Bulkley Valley in the Northwest Region. Hospital duties will include consultation to the emergency department, care of pediatric inpatients, high-risk stabilization, and care of newborns prior to transfer to larger centers if indicated. Teaching to family practice residents and 3rd and 4th year medical students will be expected periodically. Terrace has out-standing specialist and primary care support and will soon be home to a brand new hospital.
