

Transition/Transfer of Patients

The BC Pediatric Society has developed some tools to assist pediatricians in transitioning patients into adult care.

In addition to tools and resources you will find helpful for all your transitioning patients, we have also developed resources which pertain specifically to transitioning patients with a mental health disorder.

Transition Tools and Resources

The BC Pediatric Society (BCPS) developed these tools based on feedback from pediatricians, family physicians, Health Authorities, and community resources during province-wide consultations.

Click on the links below to start using these tools in your own practice:

1. [**Transition Timeline Tool**](#)
2. [**BCPS Medical Transfer Summary \(MTS\)**](#)
3. [**Locating a Family Physician / Adult Specialist** \[New Content\]\(#\)](#)
4. [**Professional Support for Physicians** \[New Content\]\(#\)](#)
5. [**Community Resources for Transitioning Youth** \[New Content\]\(#\)](#)
6. [**Transition Projects Background Information**](#)

We welcome your feedback, concerns, or comments regarding the transfer project:

Brian Evoy, Executive Director, BC Pediatric Society
