

Burnaby Hospital Pediatric Asthma Education Clinic

Burnaby Hospital is proud to introduce our Pediatric Asthma Education Clinic – with either Virtual or In Person visits

Our aim is to improve patient knowledge and adherence through education, reducing exacerbations and hospitalizations with an ultimate improvement in QOL

As part of the BC Pediatric Asthma Network, we further aim to standardize care based on the Child Health BC guidelines

Education is the key to Health

WHO will we see?

All pediatric patients with a confirmed diagnosis of asthma, referred by:

- Family physicians / NPs
- Pediatricians
- Any hospital ward or Emergency Department

WHAT we do

- Provide education via zoom or in person by a certified asthma educator
- Enhance patient knowledge about asthma, triggers, control, medications, adherence, device techniques and when to seek help
- Provide an individualized Asthma Action Plan and online resources
- Interpreter services as needed

Fax referral form to
604-412-6305 or email

bhpediatricasthmaclinic@fraserhealth.ca

WHERE?

Virtual: through Telehealth services

In office: Burnaby Hospital

3935 Kincaid St, Burnaby

Phone: 604-431-2863

Please see the attached summary of BC Guidelines for Asthma in Children

Tuesday is for families who only need education. Wednesday is our regular clinic for children who need assessment by a paediatrician, spirometry testing and education
